Service/Repairs

When you have a service problem, you need to report the problem to our customer service representatives as soon as possible.

Our customer service representatives will process a trouble report and we will do our best to locate and clear up the problem in a timely manner. Depending on the source of the problem the following guidelines apply:

- NTA maintains all outside telephone cable as part of your basic monthly rate.
- NTA maintains all inside telephone cable and equipment that is the property of NTA as part of your basic monthly rate.

In those instances where service dif

difficulty or trouble results from customer-provided or maintained inside wire, jacks, and/or equipment, the customer is responsible for repair and maintenance. The customer may hire someone or handle the repair himself/herself. If the customer requests NTA to fix the problem, then the customer will have to pay to NTA a service maintenance charge.
